

THE \$20,000 CHAIR

Here's a great story for anyone who is building additional income and creating wealth.

Once upon a time there was this successful and experienced Mail Order marketer who was talking with a brand new mailer in his family room.

The veteran pointed to an old overstuffed chair in the front of the television and said, "Kid, see that chair over there? That chair cost me \$20,000."

"That's crazy", said the new mailer, "there's no way that chair is worth that much money!"

"I didn't say the chair is worth \$20,000," countered the veteran, "I said it cost me that much. That's how much money I lost in one year sitting in it watching TV instead of doing my mailings and building my business like I should."

Let us show you what can happen when you get out of the CHAIR.

Build this for six months, then get back in the CHAIR!

Here's how it works: Send each Member \$7.00 CASH. Also send the Monitor \$7.00 CASH. This is a monitored program to ensure the Integrity and Your Rotation on the Member's List. The Monitor will setup your account, manage the program and mail new Master Flyers to your enrollees. This program can very quickly produce Tens of Thousands of Dollars. If you enroll just 7 people and they do the same through 7 layers...that's over **\$5,000,000.00! (FIVE MILLION DOLLARS)** (any portion of that is HUGE). That's the power of compounding and leveraging the efforts of other people.

The Monitor will then mail your Master Flyer to you with your name in the #1 position. Have copies printed and start mailing them to Opportunity Seekers. The members you enroll will send you \$7. Then they're placed in #1 position and you move to #2, on and on through 7 levels. Every flyer they mail will also have your name. You couldn't stop this if you tried. You could have thousands or maybe tens of thousands of fliers being mailed, by other people, with your name on them.

Your Official Master Copy will have our Double Circle Logos over the names. Anything else has been altered. Do not send money if the Watermark is not "whole". It is virtually impossible for someone to cheat this program.
