

I'm J. D. Mills, **Relax, I'm mostly telling.**

This Stuff KILLS Viruses?

If the news media doesn't stop scaring people, a lot of important businesses will go bankrupt! No matter the political party affiliation, people are **not** getting their paychecks, because their work is shut down. We are committing economic suicide!

People being scared to get closer than 6 feet from you, makes it worse!

It's time to discover and buy these special liquid drops that **kills all viruses!**

I found an exclusive liquid product that works to help remove **99.9%** of: Chlorine, fluoride, anaerobic bacteria, viruses, protozoa, pesticides, herbicides, fungicides, heavy metals such as mercury, lead, arsenic, VOCs, THMs and turbidity from water! Also, in a 90-day double-blind Clinical Study, it **reduced accumulated lead, mercury, arsenic, and harmful aluminum in the human body** by an average of **82%**! Intra-cellular hydration **increased by 32%**. I drink water with a few **virus killing drops** while shopping. If any virus strikes, I'm safe!

By the way: Have you heard of **ozone generators?** My Son found generators on Amazon that plug into wall sockets leaving the other socket clear. They cost about \$40. You adjust them until you just begin to smell the ozone and no more. The ozone will kill any kind of germ in the room. I have a large generator in our home where my wife is, in a hospital bed. The generator's on its lowest setting and my wife has been safe from any disease going on 7 years now. **Not even had a bad cold!** (I do not handle ozone generators, just so you know.)

What about the supplier of the **virus killer?**

The **Company** is 7 years old, worth over a billion dollars, and **debt free!** All products (about 10) are truly one of a kind and affordable. Members, Including Doctors, are excited about this virus killing product. You can register under a member's ID# to **become a customer** and just buy when you choose. Or, **join as a member for \$19**, then buy a 2-bottle pack for under \$40 a month to protect you and your loved ones. (But send me no money! See below for further info.)

Would you consider helping me get this virus killer to as many people as we can? I began to work hard October **2019**, and have reached high income status! I'll help you build your income if you so choose.

I wrote this letter to help educate all who will read it!

For virus killer INFO, send a long, self-addressed, Forever-stamped envelope to: Doug Milliken, 1329 Farmcrest Cir. 2-A, Mishawaka, IN 46544.
